

**MEAT
EATER**

Help Improve Our Public Lands in Mississippi!

Join the National Deer Association as we team up with the U.S. Forest Service (USFS) and Mark Kenyon of Wired to Hunt as part of the MeatEater Working for Wildlife Tour! We'll spend a day in Mississippi getting our hands dirty improving habitat for deer and other wildlife – and the best thing is that this event directly contributes to NDA's national Public Lands Conservation initiative. Ready to roll up your sleeves and get to work? Click below to learn more about the event and pre-register to attend!

Saturday, September 23, 2023

**DeSoto National Forest
and Leaf River WMA**

Activity: Wildlife tree establishment, food plot seeding and invasive plant removal.
