# Help Improve Our Public Lands in Pennsylvania!

Join the National Deer Association as we team up with the U.S. Forest Service (USFS), numerous conservation partners and Mark Kenyon of Wired to Hunt as part of the MeatEater Working for Wildlife Tour! We'll spend a day in Pennsylvania getting our hands dirty improving habitat for deer and other wildlife – and the best thing is that each event directly contributes to NDA's national Public Lands Conservation initiative. Ready to roll up your sleeves and get to work? Click below to learn more about the event and pre-register to attend!

**Saturday, June 1, 2024**  
**Allegheny National Forest**

**Activity:** Rehabilitating wildlife openings, tree and shrub planting, and some fencing and bird nesting box projects.

**Register HERE!**
